POLARIS®

NEW! 2018 POLARIS® 600R

The new 2018 Polaris 600R Race Sled continues to push and evolve technology to deliver a title and race-winning snowmobile.

Front Suspension

- **NEW!** Walker Evans Velocity Front Suspension Shocks & Springs
 - Polaris leads the industry with this premium, high performance shock.
 - The position sensitive-shock allows for a softer initial setting but still has stiffness at bottom for big hits.
- **NEW!** Upper Front Control Arm design to accommodate new shock reservoir position and for added protection to the shock.
- **NEW!** Taller Spindles improve cornering and add ground clearance (0.5-in. taller).

Clutch

- **NEW!** Clutch features straight-cut sheave angle for improved holeshot performance due to better belt grip.

Brakes

- **NEW!** Floating Stainless Steel Brake Rotor and **NEW** Brake Pads
 - Improved stopping power, performance and durability.
 - The lighter-weight rotor is floating to prevent warping.

Running Boards

- Feature new stock cutouts for easy snow evacuation and added traction cleats for additional rider traction.

Seat

- **NEW!** Seat cover material for improved durability that maintains grip.

Rear Suspension Shocks

- Calibration and styling updates.

FrogzSkin on Upper Hood Vents

- Added intake foam seal and included FrogzSkin over upper-hood vents to prevent snow ingestion.
