Let Your Dreams Take Shape in a

SEDONA

Sunny days are value days with the all new Sedona. Built by Bennington Marine to the same high standards as other Bennington boats, Sedona gives you great value... with top-of-the-line design and construction features.

Sedona makes your dream of owning a pontoon boat possible. It's the ideal boat for first-time or price-conscious pontoon buyers.

**An entry level boat with
top-of-the-line design and
construction features?
Who knew you could own a
boat that gives you so much
for so little?**

Look around — and inside — your Sedona. All six models, from 19 to 25 feet, offer at least one chaise lounge with storage, a CD player, a nine-foot Bimini top with patented quick-release fittings, a heavy-duty stern ladder, optional privacy enclosure and more. All with a three-year stem-to-stern warranty.

So what are you waiting for? Let your dream come true in a Sedona.

F19 in Blue

2 Pole Rod Holder

Bow Livewell

Look around—and inside—your Sedona.

The Sedona is built to the same high standards of our other pontoon boats. The only difference is in the number of amenities you find topside. Around – and inside—you'll find attention to construction detail unmatched in any other comparable brand pontoon boat.

Ny-Lock Elevator Bolts

Stainless steel elevator bolts with Ny-Lock nuts are used to secure the deck to the cross channels. They are stronger and have more holding power than the self-tapping screws used by many of our competitors.

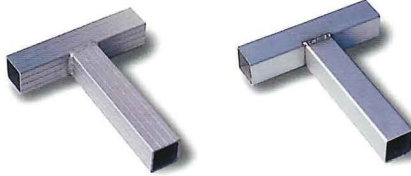

Rattle-free rails

A special sealing tape on the perimeter of all Sedona rail panels ensures a quiet, rattle-free ride.

Radius Bow Channel

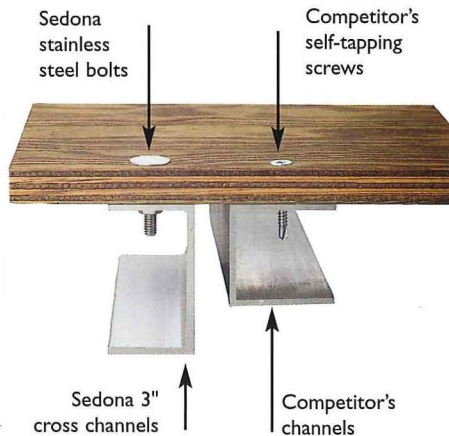

The 1/4" (.250") thick radius bow channel reinforces the anodized bow trim on all Sedona pontoons. The super strong radius channel eliminates the need for bow corner castings which can easily break, pit, corrode and discolor. The radius bow channel also prevents the bow deck from sagging and protects against possible docking damage.

Our Rails

Their Rails

Unlike many of our competitors, Sedona's rails are welded before anodizing, not after. This results in a stronger, smoother weld that will not discolor from oxidation. Sedona rails are also welded on four sides, not two, wherever possible. Sedona rails are 1 1/4" (not 1"); .080" thick (not .060"). The rails are anchored to the frame of the boat (not the wood deck) wherever possible. Our inside rail supports are solid rather than hollow to ensure the sturdiest rails in the industry.

Sedona's 3-inch high cross channels are standard throughout the boat. They were designed for today's heavier, larger horsepower engines and are the main reason why Sedona pontoons provide a solid, quiet ride.

Pontoon Bow Eye

Durable aluminum extruded bow eyes (not brittle castings) are beveled at the edges. The smooth radius edges prevent chaffing and snagging of dock lines.

Quick-release Bimini frame – no tools required (patented)

Quick-release Bimini strut (patented)

Quick Release Radius Bimini Top

Sedona deluxe bimini tops are without a doubt the sturdiest and most attractive in the industry. The radius top frame adds much to its stylish good looks and allows easy run-off of water (no puddling). The top is high enough so that even a very tall person can walk under it without ducking.

WIRING— Every boat has a main wiring harness that is

designed specifically for that model, and every wiring harness features marine grade, waterproof Deutsch connectors. Some boat manufacturers use quality connectors only in areas that can be seen in order to say they have an "advanced electrical system." Sedona uses these Deutsch connectors throughout the boat... so we truly do!

RIGGING COMPONENTS— We pre-rig our boats with genuine Yamaha OEM (Original Equipment Manufacture) parts. We use the best binnacle controls and wiring harnesses available. Teleflex Extreme control cables, or equivalent, provide for silky smooth throttle and shift operation. A Teleflex 4:2 ratio helm makes steering our boats a pleasure. Fog resistant gauges help minimize moisture build-up. And of course, everything is backed with at least three years of warranty coverage – standard.

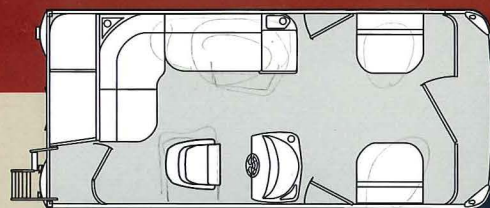

Specifications and Floorplans

Standard Features Include: 12 volt receptacle • 20 oz. carpet • 31 oz. marine grade vinyl • 34" console • 36 can soft cooler • 9' bimini top with boot, quick release fittings & solid front struts • AM/FM stereo & CD player • Anodized aluminium rails • Concealed wastebasket storage • Dura-frame seat bases and backs • Fire extinguisher • Heavy duty deep reach built-in ladder • Pontoon skirting • Stainless steel corner castings • Stainless steel deck bolts • Stern entry • Tach, fuel & trim gauges • Underdeck spray deflectors • Watertight electrical system with Deutsch connectors • Windshield

Only Sedona gives you all these standard features

We want owning a Sedona to be a carefree and positive experience. So our comprehensive standard warranty includes a stem-to-stern warranty covering electronics, components and other items as standard!

Sedona's Comprehensive Standard Warranty

Lifetime Structural Warranty

Limited lifetime coverage against failure of all pontoons, gates, channels, motor mounts, railings and roto-molded seat frames.

Lifetime Wooden Deck Warranty

Transferable limited lifetime coverage to repair or replace any wood decking free of charge for materials and labor.

Five-Year Carpet and Upholstery Vinyl Warranty

Carpet and upholstery vinyl warranted from failure resulting from fading or workmanship for five years.

Five-Year Bimini Top Fabric Warranty

Bimini fabric warranted against excessive loss of color or strength for five years.

Three-Year Stem-to-Stern Electronics, Components and Other Items Warranty

Three year coverage of gauges, electronics and all other components not described above.

We made the best warranty in the business better with the Sedona Advantage!

The Sedona Advantage gives you the most comprehensive extended warranty in the business! With this option, you can extend warranty coverage from the standard three-year warranty to five full years on an extended group of boat components. Sedona Advantage coverage includes instrumentation, depth finders, wiring harnesses, livewell pumps, stereo and speaker systems and more. Best of all, Sedona Advantage is administered exclusively by Sedona Marine assuring you of immediate attention. Ask your dealer about the details and added peace of mind Sedona Advantage brings.
